SOtM will exhibit the Ultimate products in a complete line up.

SOtM will demonstrate an newly announced audiophile music server & player named sMS-1000 SQ and an ultimate stereo power amplifier named sPA-1000 for the first time at 2015 CES.

The **sMS-1000 SQ** is available with high quality USB output as well as digital or analog output, supports up to 32bit/384KHz, native DSD playback and features as DLNA server & DLNA renderer, sMS-1000 SQ will show you what is the leading technology surely.

The highly regarded **sDP-1000 Ex** will be used as a combined DAC and power amplifier, brings high resolution sound through various digital & analog inputs and also with various analog outputs.

SOtM's first power amp, **sPA-1000** is a full balanced Class D amplifier, has balanced and unbalanced analog input. It will present much powerful performance with highly detailed sound.

As an ultra-low noise linear power supply, **sPS-1000** will be used for both sMS-1000 SQ and high quality USB output and also with for sDP-1000 Ex, it will make the sound very much firm and tidy for sure.

All this combination will present the richest sound from the very lowest noise floor with SOtM's high technology.
